

Veteran owned and operated Connex named as one of the Top Medical Billing Companies in the United States

Share Article

Connex Global Solutions, a veteran owned and operated outsourcing firm, has been named one of the Top Medical Billing Companies in the United States by trusted outsourcing authority, Outsource Accelerator.

HONOLULU, HAWAII (PRWEB) JULY 06, 2023

Connex, a leading provider of medical billing outsourcing services, is proud to announce its recent recognition as one of the top medical billing companies in the United States. Connex has challenged the traditional medical billing outsourcing model by helping clients build custom offshore medical billing and revenue cycle support teams.

The recognition was bestowed upon Connex by a renowned outsourcing publication following a rigorous evaluation process. The company's unwavering dedication to client growth and satisfaction played a pivotal role in securing this esteemed position.

Connex helps healthcare organizations build dedicated, custom medical billing support teams in the Philippines and Latin America. By leveraging this model they are able to give clients complete control and customization of the team composition, skillsets, training, and IT setup. As the former President of a large healthcare organization in Hawaii, the service is everything Connex President, Tim Mobley wanted as the purchaser of these services.

"I was the President of a healthcare group and we struggled to find the staff we needed to grow," said Tim Mobley, President of Connex. "Outsourcing seemed like a logical approach but I couldn't call the major outsourcing providers about eligibility verification services at the scale we were operating. I created Connex to address those challenges I experienced as a buyer of outsourced medical billing services."

Connex's success is underpinned by its team of highly skilled billing specialists who possess a deep understanding of recruiting, training, and managing revenue cycle support teams. These experts work closely with clients to tailor solutions that align with their specific needs and optimize revenue generation. By providing comprehensive revenue cycle management services, Connex empowers healthcare providers to enhance operational efficiency and financial stability and to enable long term growth.

The recognition of Connex as one of the top medical billing companies in the United States reaffirms the company's commitment to excellence and client success. As the healthcare industry continues to face evolving challenges,

“Outsourcing seemed like a logical approach but I couldn't call the major outsourcing providers about eligibility verification services at the scale we were operating. I created Connex to address those challenges I experienced as a buyer of outsourced medical billing services.”
